March 2019

Issue 2

Welcome to our 2nd Newsletter!

It's hard to believe that the first quarter of the year is near an end, FMD now in place and Brexit looming. The first quarter has posed many challenges for the industry.

The latest concessions for February have been released by the Department of Health and Social Care. (Please see the highlights on the right). Unfortunately, it is still a very challenging time for pharmacies and dispensing doctors to negotiate this turbulent market. We continue to work closely with our customers to offer impartial advice on best deals available and pass on any information we may hear in the market.

On other news.... Exciting times here at ZeCare as we look forward continuing to grow our customer base and introduce new products to our portfolio, which is off to a strong start. Please see page two to see what's new in stock and an excellent OTC range not to be missed!

With the early bout of glorious weather, it gives way to hay fever season. Please contact your sales representative for availability and pricing on the hay fever drugs to ensure you are ready for the spring and summer months and the constant sneezing and streaming eyes amongst the sufferers!

Things coming up...

As the financial year end is approaching, ZeCare has its annual stock take on 29th March 2019. We are hoping this has little impact on the day. We will however contact our customers in good time to advise if anything changes. Also, don't forget Gabapentin and Pregabalin will be schedule 3 drugs on April 1st.

Thank you for taking the time to read this month's edition.

The ZeCare Team
