May 2019

Issue 4

Welcome to the May edition of our monthly Newsletter!

What a fantastic sunny Easter weekend! Absolutely stunning. Luckily no chocolate eggs were harmed in the heat, so we've all been scoffing our faces ever since Easter Sunday!

We would like to say a big thank you to our customers for their co-operation and understanding with the delivery days over the Easter holiday period.

Hay fever season is very much in full flow due to the warm and humid weather. Rumour has it, it could be a long summer for hay fever sufferers. The increased demand for medication usually brings some shortages in the market. Please contact the sales team for up-to-date pricing and market information about the hay fever products we can supply. We will soon be stocking an exciting new hay fever OTC range. You can find more details about HayMax below.

During April, our buyer has once again been busy adding to our ever-growing product portfolio. We welcome any suggestions from our customers that will allow us to grow our offering and to help you navigate the tricky pharmaceutical market.

Thanks for reading, the ZeCare Team

We've made an exciting new addition to the ZeCare OTC portfolio.

With hay fever season starting to affect all the sufferers out there, HayMax will be a great new addition to your shop.

This organic, drug-free allergen barrier balm (sometimes referred to as nasal balm) is applied to the rim of the nostrils and below the eyes, and has been proven to reduce dust and pet allergens entering the body by more than a third. And of course, less allergens means fewer hay fever symptoms.

For more details and price information, please contact your ZeCare sales representative.

HEAD of SALES & MARKETING

I joined ZeCare in 2008 and I am immensely proud to work for this customer-focused, ethical company. At ZeCare, we passionately believe in working in partnership with our customers to help you to maintain profitability in what can sometimes be a tough market to negotiate. One of our biggest strengths is our ability to supply very emotive lines to our loyal customers, while still offering the extra customer service that is lacking with many larger companies. In addition, we pride ourselves on offering an extremely competitive and transparent price – what you are quoted is what you pay. We have very high levels of customer retention – once a dispensary or pharmacy take the decision to use us they very rarely leave. I believe this is testament to the upfront, honest and competitive service that we provide. In this industry the most important marketing tool we have is word of mouth, so if you already use our service – a huge thank you and please tell your contemporaries about us.
